

TERMINAL BOXES

Scoop type compartment boxes are a handy way of organizing and neatly transporting terminals, screws and all types of fasteners. Two types of boxes are available.

METAL

Metal boxes are made of prime cold rolled steel, finished with rust and acid resistant baked enamel (gray). Both the large and small boxes have 21 compartments with one long compartment for tool storage. A catch type latch keeps the lid secure.

PLASTIC

Manufactured from high strength, oil resistant polypropylene, plastic boxes are durable and economical. The transparent plastic boxes are furnished with heavy-duty reinforced hinges that allow the lid to stand up in the open position. The cover overlaps on all sides fitting snugly against the edges.

Order by the box.

ELECTRICAL SEALANTS & COATINGS

3M 3M™ Electrical Coating

3M™ Scotchkote™ electrical coating provides a tough, oil-resistant outer seal on electrical insulation subjected to abnormal weathering, oil, or moisture conditions. The brush applied coating provides added oil and moisture protection when used over an application of Scotch™ Vinyl electrical tapes.

FEATURES:

- Provides a tough oil-resistant seal
- Integral Brush and Cap
- Easy to Coat.
- Fast Drying
- 15 Fl. Oz. (443 ml) per can

Part Number = **VSCOTCHKOTE**

3M 3M™ Insulating Sealers

3M™ 1602 and 1603 Sealers insulate, refinish, and protect. Use to overcoat outdoor electrical splices and splice cases to impede the effects of weather, moisture, acids, alkalis, and oils.

FEATURES:

- Provides 850V per mil insulation
- Inhibits Rust
- Impede the effects of weather, moisture, acids, alkalis, and oil
- 15.13 fl. oz. (447 ml)

TERMINALS & LUGS

CORROSION X Marine...

CORROSION X™ MARINE

The new generation in corrosion control. Corrosion X™ Marine takes corrosion protection to a higher level. It keeps corrosion from starting and kills it where it already has a foothold, by displacing moisture to provide long-lasting protection. Also, Corrosion X™ is a superior penetrate. Use Corrosion X™ Marine on any metal fixture or electrical component.

PART NUMBER	SIZE
VCX-6	6 OZ.
VCX-16	16 OZ.

CORROSION X™ HEAVY DUTY

is for super long-term protection against serious rust and corrosion assault. It is a high performance, thick film version of CorrosionX. It will slowly penetrate existing rust and corrosion, remove moisture and stop electrolysis. And then it seals moisture out. Unlike wax coatings, it will not dry out, stiffen or crack under stress. It will remain for hours on outdrives, even while underway!

PART NUMBER	SIZE
VCX-12	12 OZ.
